**Re: New 2" Output Shaft**

Heco Inc. is pleased to announce the introduction of a new 2" straight keyed output shaft. This new shaft, designated Code 6, is available on all Model 16 reducers, and can ship from Heco Inc. based upon our standard lead-time of 4-6 weeks.

Enclosed are diagrams showing the new 2" shaft incorporated into Heco's Model 16 Front Flange and Center Flange reducers. There will be no additional charge to distributors when choosing this Code 6 output shaft option when ordering Model 16 reducers.

Thank you for your time and cooperation.

Sincerely,  
Heco Incorporated
