Model 12 Features:

- Rugged, Impact Resistant, Tapered Roller Bearings Retained with Lock Nut, Designed for High Shaft Loads
- Mechanically Disengages from Motor Shaft When Forward Handle is Actuated
- Totally Sealed and Oil Lubricated with Viton Shaft Seal Standard; Ideal for Harsh Environments
- Accepts 1-1/4” 14T 12/24DP Motor Shafts with Lengths from 2.10”-2.25”
- Rated for Shaft Speeds up to 2000 RPM
- Towable at Highway Speeds when Disengaged

Model 12 Features:

- Rugged, Impact Resistant, Tapered Roller Bearings Retained with Lock Nut, Designed for High Shaft Loads
- Mechanically Disengages from Motor Shaft When Forward Handle is Actuated
- Totally Sealed and Oil Lubricated with Viton Shaft Seal Standard; Ideal for Harsh Environments
- Accepts 1-1/4” 14T 12/24DP Motor Shafts with Lengths from 2.10”-2.25”
- Rated for Shaft Speeds up to 2000 RPM
- Towable at Highway Speeds when Disengaged
